NEXT IS NOW.

ROBOTICS ROW THE BIG PICTURE

Current as of July 2024

Robotics Row: Pittsburgh's Hub for Autonomy

Robotics Row in Pittsburgh is more than just a location. It's a vibrant ecosystem where innovation thrives, and the future of robotics is being shaped. The unique blend of strategic location, world-class academic partnerships and a supportive community make Robotics Row the place to be for any robotics firm looking to grow and thrive in the Pittsburgh region.

Why Robotics Row?

This is where future-forward innovation converges with the industrial allure and pioneering spirit of Pittsburgh's past. Robotics Row is home to some of the world's most advanced robotics companies, research institutions and startups. It buzzes with creativity and ambition, attracting engineers, entrepreneurs and researchers from around the globe.

Get To Know "The Row" (a few of the tenants)

The Robotics Factory

6425 Penn Ave., Pittsburgh, Pa. 15206

Accelerates the growth of robotics companies through a combination of mentorship, resources and state-of-the-art facilities. It's both incubator and accelerator, supporting startups from concept to commercialization.

Bosch Research and Technology Center

2555 Smallman St., Pittsburgh, Pa. 15222

A global leader in technology and services, focusing on robotics and AI. Develops advanced robotics systems for various industrial applications, contributing significantly to the local innovation ecosystem.

National Robotics Engineering Center (NREC)

10 40th St., Pittsburgh, Pa. 15201

A part of Carnegie Mellon University's Robotics Institute that's dedicated to developing and commercializing robotic technologies. Partners with government and industry to create innovative solutions in automation, autonomy and artificial intelligence.

Gecko Robotics

100 S Commons, Suite 145, Pittsburgh, Pa. 15212

Develops robots that inspect and maintain critical infrastructure, ensuring safety and efficiency in industries like power, oil and gas and manufacturing.

Key Benefits of Robotics Row

1. Strategic Location and Infrastructure

- Situated along the Allegheny River where natural beauty and a strategic location meet.
- Features a mix of modern real estate and repurposed industrial spaces, offering versatile environments for diverse business needs.

2. Proximity to Leading Academic Institutions

- Within a 10-minute drive, two Tier 1 institutions, Carnegie Mellon University and the University of Pittsburgh, offer fertile ground for collaboration between academia and industry.
- This synergy spurs big ideas and attracts talent and investment.

3. Vibrant Community and Ecosystem

- Thrives on its community-driven environment, supported by state-of-the-art facilities, incubators and venture capital.
- Destination for numerous tech showcases, networking mixers and events that foster innovation and collaboration.

Astrobotic

1016 N Lincoln Ave., Pittsburgh, Pa 15233

A lunar logistics company that delivers payloads to the Moon for companies, governments, universities, non-profits and individuals. With a vision to make space accessible to the world, Astrobotic is a leader in the emerging space economy.
